The downward movement was neither universal nor marked. There were strong spots in the list, but they were among the least influential stocks. Nearly all the stocks were selling at low prices in the market, many of them not paying dividends. The stiffness of the money rate offers plausible grounds for favor towards low-priced stocks. To carry them in the market requires a much smaller sum of money, while a movement of a point in the price offers as large a profit on speculative holdings as would result from a similar movement in the very high priced stocks. There was a story of Hill buying of Missouri, Kansas & Texas to account for the rise in those stocks, said to be for a strategical move against the Harriman control of Illinois Central. Of the stocks of most prominence, St. Paul was the only one to be neglebly streng at any time. 931/2 578/4 381/8 687/8 577/8 138 23 2311/4 552 1.000 1751/2 1741/2 Inter. Paper preferred .. Inter. SYPHILIS, BLOOD POISON. YOU ARE NEVER SAFE WHILE THIS POISON REMAINS IN

A person afflicted with Blood Poison cannot feel safe while any of the virus or poison remains in the system. This disease, with little doubt, is one of the most horrible and deadly which affects the human family, from the fact that though its beginning is manifested by only a small sore, in a short time it becomes constitutional; the blood is contaminated, the tissues break down, and a multitude of terrible symptoms follow, such as unsightly skin eruptions, sore throat, falling of the hair, pains in various parts of the body, inflamed eyes, general emaciation and debility. Later may follow disease of the nerves, such as paralysis, locomotor ataxia, softening of the brain, insanity, etc. We will cure you if your case can be cured.

Pronounced Nervous Disorders. MEN WHO LACK VIGOR AND MENTAL CLEARNESS.

There is a peculiar form of impotency to which men and all those whose brains are in constant action are subject to in a greater or less degree. It is sometimes referred to as brain-fag. The daily grind of balances, of collections, losses and business complications brings on a sort of apathy.

DESPONDENCY MAY ENSUE.

The cares of business are already sufficient to overburden the mind, but when the nerve force and vigor seem to have given cut, a very dangerous complication is added to the mental condition. We cure this ailment by our own scientific methods. Write if you carnot call.
